Linux

Best Practices

Passion

GOAL

My primary objective is to deepen my understanding of building and working on enterprise-level systems while expanding my overall knowledge of software. I aim to excel in navigating the complexities of large-scale software development, ensuring proficiency in crafting robust solutions for enterprise-level challenges. This includes a comprehensive understanding of software architecture, development methodologies, and best practices.

WORK EXPERIENCE

Developer

Software Dev at Jordan Bell Web Dev 2022- Present
